DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Amend the claims as the following:

In claim 25, on line 3, replace the phrase "a chip like" with "an".

Authorization for this examiner's amendment was given in a telephone interview with Raymond Cardillo on 6/1/05.

Allowable Subject Matter

3. Claims 25-34 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The reason for indication of allowability of claims 25-34 is the inclusion therein of the limitations that of a injection enhanced gate transistor structure having a current sense emitter electrically separated from a main emitter in the structure, along with the other limitations in those claims. These limitations, combined, are not found in the prior art of record, alone or in combination. The closest prior art, US Patent 5,874,750, issued to Yanagisawa et al. discloses the injection enhanced gate transistor structure, but does not disclose the current sense emitter being electrically separated from the main emitter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
